Lift Passes

There is really one decision to make when buying a lift pass – do you want to ski just the Les Arcs/ Peisey Vallandry area, or do you want to ski the full Paradiski area which includes La Plagne?

Snow Situations is superbly located so that either option is a good one!!

Les Arcs/ Peisey Vallandry Area:

As you can see from the above map, there is a LOT of skiing and we think it is the best ski area in the world!! There is about 200km's of marked pistes, endless gentle and epic off-piste areas.

There are spectacular views from the top of the Aigle Rouge at 3,226m altitude with a 7km run down to Villarroger. Despite the extensive area, its mountain formation means that if you are in a mixed group who like to venture to different areas, it is relatively simple to meet up within a lift or two.

I could go on about the amazing runs, snow parks, water slides and luge areas, but I want to leave some gems for you to discover too!
